

Voe House Laundry Instructions

Voe House is equipped with 2 commercial standard washers and dryers. These are simple to use following the **instructions provided**. Guest are welcome to use these machines for their own laundry.

Do not wash any of our bedding / linen / towels, this will be done by staff.

Note we accept no responsibility for damages / shrinkage for clothing washed by guests on our premises.

Each of the 2 washing and dryer machines has its own electrical switches.

See picture to the left.

When the machines are not in use the switches need to be turned off.

An important precaution when using the tumble dryers is to keep the filter clear of any fluff.

The picture to the left shows the tumble dryer filter, lifted up in position for cleaning.

An uncleaned filter is a potential fire hazard if not kept clean. Any guest that uses the dryers must ensure the filter is kept clean.
